Measures to address cost of living pressures

Hayati Dzulkifli

KUALA LUMPUR: The government remains committed to addressing cost of living pressures through sustained intervention measures, including price stabilisation and efforts to boost household income, said Domestic Trade and Cost of Living Minister Datuk Armizan Mohd Ali (**pic**).

He said the concerns raised by several Members of Parliament ranged from general anxieties over rising expenses to specific matters under the purview of KPDN and other agencies.

He said the government takes seriously issues such as income levels that are insufficient to meet living costs, rising prices of food, housing and education, as well as the broader social security implications stemming from economic pressures.

"KPDN welcomes calls for a more comprehensive approach in addressing cost of living challenges.

"While key economic indicators – includeng inflation rates, findings from the Household Income and Expenditure Survey, and the Gini coefficient – showed positive trends, the government would continue its intervention and mitigation measures to help the rakyat cope.

"This is implemented through a two-pronged approach: ensuring price stability of essential goods and services, and increasing disposable income among the people," he said.

Armizan who is also Papar Member of Parliament said this during his winding-up speech on the Motion of Thanks for the Royal Address at Dewan Negara on Tuesday.

He said measures to stabilise prices include strict monitoring of supply chains and enforcement actions to maintain a fair, transparent and competitive market ecosystem, as well as targeted interventions to improve public access to daily necessities.

At the same time, he said the government is implementing various policies and programmes aimed at stimulating income growth, including creating job opportunities, raising the minimum wage, introducing a progressive wage policy, empowering entrepreneurship, and providing targeted cash assistance, among others.

Armizan said cost of living issues are being coordinated through the National Action Council on Cost of Living (NACCOL), which adopts a whole-of-government approach involving multiple ministries.

He said the council addresses key clusters such as food, health, education, housing, transport, income and utilities, and the agenda would be further strengthened through a whole-of-nation approach involving the private sector and other stakeholders.

Under the 13th Malaysia Plan (RMK13), Armizan added, these efforts would be reinforced through a Strategy to Strengthen Cost of Living Management, supported by the National Cost of Living Action Plan 2026-2030, which is expected to be finalised in the second quarter of this year.

KPDN exploring transport solution for MADANI Rahmah Sales in interior areas, says Fuziah

KUALA LUMPUR: The Ministry of Domestic Trade and Cost of Living (KPDN) is studying the possibility of appointing a transport company as the operator of the MADANI Rahmah Sales Programme (PJRM) in the interior areas of Sabah and Sarawak.

Deputy Minister Datuk Dr Fuziah Salleh said that the move was seen as a solution to the constraints faced by existing operators, who found it difficult to reach the areas due to high logistics costs.

"The programme sometimes does not reach interior areas because operators are unwilling to travel there due to transportation cost challenge. That is why they often reject (requests to go to interiors).

"So we are looking into whether these transporters can become Rahmah Sales operators since they already receive logistics subsidies from the ministry," she said during an oral question-and-answer session at the Dewan Negara on Thursday.

She said this in reply to a supplementary question from Senator Abun Sui Anyit, who asked about a more targeted mechanism to stabilise the prices of basic necessities in interior areas, including the potential involvement of cooperatives and local transport operators.

Fuziah further explained that KPDN had set aside RM67 million this year under the Port-to-Port initiative for the Standardisation of Prices of Basic Necessities Programme in Sabah, Sarawak, and Labuan.

She said the subsidy was intended to cover the cost of shipping goods from Port Klang to major ports such as Kuching and Kota Kinabalu, to ensure that the prices of items like sugar and onions remain stable.

"The government has also allocated RM250 million this year under the Essential Goods Distribution Program for interior areas, covering 1,570 locations identified as needing Point of Sale (POS) facilities, of which 1,480 are in Sabah and Sarawak.

"This allocation is given to transporters appointed through a tender process to deliver basic necessities directly to POS in the interior," she said. — Bernama

Transport operators eyed for remote area deliveries

KUALA LUMPUR: Sabah and Sarawak may see a transport company appointed to operate the MADANI Rahmah Sales Programme (PJRM) in their interior areas, as the initiative is currently under study.

Deputy Minister of Domestic Trade and Cost of Living (KPDN), Datuk Dr Fuziah Salleh, said that the move was seen as a solution to the constraints faced by existing operators, who found it difficult to reach the areas due to high logistics costs.

"The programme sometimes does not reach interior areas because operators are unwilling to travel there due to transportation cost challenge. That is why they often reject (requests to go to interiors).

"This allocation is given to transporters appointed through a tender process to deliver basic necessities directly to POS in the interior," she said.

Meanwhile, Fuziah said that KPDN had completed a Price Stability Study and set up a technical working group involving the federal government, state governments, and industry players to develop a long-term price stability strategy.

She said the ministry would also conduct a review under the Second Rolling Plan of the 13th Malaysia Plan to assess the need to increase the number of POS in areas not yet covered for the supply of essential goods. – BERNAMA

Perak food rescue team back in action at 12 sites

A RAMADAN bazaar food rescue group is continuing its mission of distributing unsold food to the needy and saving it from ending in the bin.

Perak MySaveFood@Ramadan (MSF) project manager Puteri Aisyah Megat Shariffudin said the initiative, which aimed to create awareness of food wastage, had entered its sixth year, reported Bernama.

She said that on the first day of the programme, which was the fourth day of Ramadan, 126kg of surplus food and beverages were collected from the Taman Cempaka and Silibin bazaars in Ipoh.

The total comprised 58kg of food and 68kg of drinks.

Puteri Aisyah said both bazaars were small with about 40 stalls each, but the surplus food recorded was quite high.

"On average, one stall generates around 1kg of surplus food.

"Every year we conduct awareness campaigns among traders.

"But based on our observation, awareness remains low despite the programme having been implemented for several years now.

"One possible factor is that traders change from year to year," she said.

This year's programme in Perak involves 12 bazaars, compared to 15 last year.

The MSF@Ramadan in Perak is being conducted in collaboration with Ipoh City Council (MBI), the Perak Tengah and Tanjong Malim district councils and Teluk Intan Municipal Council.

Domestic Trade and Cost of Living Ministry is pitching in through its "*Gerakan Pengguna Siswa*" volunteer programme involving university students.

"To strengthen awareness, we are also looking at issuing a 'red card' to stalls that repeatedly generate a lot of food surplus," Puteri Aisyah said.

Wholesaler fined for poor stock records in Labuan

Ahmad Apong

LABUAN: The Ministry of Domestic Trade and Cost of Living (KPDN) Labuan has taken action against a wholesaler for failing to maintain proper stock records of controlled goods such as cooking oil and sugar.

During an enforcement operation under Ops Pantau Bekalan, inspections revealed incomplete transaction details, including missing dates, quantities, prices and supplier or buyer information.

Labuan KPDN Director Junaidah Arbain said the offence violates the Control of Supplies Regulations 1974 under the Control of Supplies Act 1961.

Licensed traders must maintain and regularly update stock books, and failure to do so can result in fines of up to RM1 million, imprisonment of up to three years, or both.

Companies may face fines up to RM2 million, rising to RM5 million for repeat offences.

Junaidah added that KPDN will continue strict monitoring and enforcement against violators.

MACP perkenal garis panduan AI

BADAN Perlindungan Hak Cipta Muzik Berhad (MACP) memperkenalkan Garis Panduan Mengenai Kecerdasan Buatan (AI) bagi melindungi, memperjuangkan hak dan memelihara kepentingan pencipta muzik di negara ini.

MACP dalam kenyataan berkata langkah itu bertujuan memastikan ekosistem muzik tempatan kekal dilindungi di bawah kerangka undang-undang sedia ada dalam landskap teknologi AI yang berkembang pesat dan berpotensi menimbulkan cabaran baharu berkaitan hak cipta, pemilikan serta pampasan yang adil dan setara bagi pencipta muzik.

"MACP menegaskan bahawa hak cipta merupakan hak eksklusif yang terhasil daripada daya kreatif dan sentuhan manusia.

"Garis panduan baharu ini menetapkan bahawa hanya karya asli yang dihasilkan sepenuhnya oleh pencipta manusia layak didaftarkan dengan MACP dan menerima pembayaran royalti.

"Oleh itu MACP tidak mengiktiraf sebarang karya yang terhasil sepenuhnya atau sebahagiannya dengan bantuan AI," kata kenyataan itu.

Kenyataan itu menambah garis panduan AI MACP ini selaras dengan pendirian kerajaan dan mengambil kira keperluan untuk mengekalkan perlindungan hak cipta manusia dalam teknologi AI.

"Bagi melaksanakan garis panduan ini MACP memperkenalkan mekanisme pengesahan mandatori di portal ahli 'myKarya'.

"Ahli MACP perlu mengesahkan bahawa karya yang didaftarkan adalah asli dan bukan dihasilkan melalui AI.

"Sebarang deklarasi palsu yang melibatkan karya janaan AI akan berhadapan dengan tindakan tegas termasuk pembatalan pendaftaran karya serta penahanan pembayaran royalti," ujar kenyataan sama.

Kenyataan itu menambah latihan atau penjanaan kandungan AI oleh syarikat atau penyedia perkhidmatan AI berpotensi melibatkan karya yang dilindungi hak cipta, termasuk karya muzik milik ahli-ahli MACP.

"Oleh itu MACP berharap peruntukan khas bagi Perlombongan Teks dan Data (TDM) yang bakal digubal oleh kerajaan tidak memberikan sebarang pengecualian yang menjejaskan hak pemegang hak cipta.

"Mana-mana pihak ketiga termasuk syarikat AI yang ingin menggunakan repertoir MACP untuk latihan AI atau penjanaan kandungan mesti memperoleh persetujuan bertulis terlebih dahulu serta memasuki perjanjian lesen dengan MACP.

"Penggunaan tanpa kebenaran karya MACP dalam pembangunan atau output AI dianggap sebagai pencerobohan hak cipta dan akan tertakluk kepada tindakan undang-undang," jelasnya.

Sebagai Badan Pengurusan Kolektif (CMO), MACP berkata ia komited untuk terus melindungi hak cipta dan kepentingan pencipta muzik di Malaysia.

"Komitmen berterusan ini bukanlah untuk menolak teknologi, sebaliknya sebagai langkah proaktif MACP bagi memperjuangkan hak dan memelihara kepentingan pencipta agar AI tidak merampas hak asasi pencipta muzik," katanya.

Sementara itu badan itu menyambut baik inisiatif kerajaan untuk menggubal Rang Undang-Undang (RUU) Tadbir Urus AI.

Baru-baru ini di Parlimen Perdana Menteri Datuk Seri Anwar Ibrahim menegaskan bahawa langkah itu bertujuan mewujudkan akauntabiliti serta etika, selain memastikan undang-undang sedia ada terus terpakai dan boleh dilaksanakan.

"MACP menegaskan komitmennya untuk memastikan perlindungan terhadap pencipta tempatan terus terpelihara selari dengan keperluan mengimbangi kemajuan teknologi.

"Kami juga bersedia menyertai proses libat urus penggubalan rang undang-undang tersebut serta memberi input bagi memperkukuh tadbir urus AI di negara ini khususnya berkaitan hak cipta karya muzik," katanya.

Susulan itu Menteri Perdagangan Dalam Negeri dan Kos Sara Hidup (KPDN) Datuk Armizan Mohd Ali turut memaklumkan bahawa di bawah Akta Hak Cipta 1987, perlindungan hak cipta hanya diberikan kepada orang yang berkelayakan dan karya tersebut mestilah hasil daripada usaha yang mencukupi daripada manusia.

Oleh itu karya yang dijana oleh AI tidak layak memperoleh perlindungan hak cipta mengikut undang-undang sedia ada di Malaysia.

Armizan turut dipetik berkata KPDN melalui Perbadanan Harta Intelek Malaysia (MyIPO) sedang meneliti keperluan untuk mengemas kini undang-undang sedia ada.

"MACP turut menyokong kenyataan Menteri KPDN bahawa pemilik hak cipta asal berhak mengambil tindakan undang-undang sekiranya sesuatu karya janaan AI didapati melanggar hak cipta," tambah kenyataan itu. - **Kazalinah Kamaludin**

Beliau berkata, Unit Anjing Pengesan (K9) dari Ibu Pejabat Polis Kontinjen (IPK) Sarawak turut digerakkan bagi membantu pemeriksaan serta mengesan sekiranya terdapat aktiviti penyeludupan dadah di lokasi serbuan.

"Kesemua tangkapan dan rampasan telah diserahkan kepada agensi berkaitan untuk tindakan serta siasatan lanjut di bawah undang-undang yang berkuat kuasa," katanya.
